

Colours may not appear exactly as shown. Contact your authorized dealer for proper colour samples. Please note an additional charge applies to our Diamond Series and custom colour program(s).

Vista Aluminum Railing Systems are a low maintenance and economical alternative to steel, iron or wood. Vista is engineered to meet North American building code requirements and the powder coat finish meets AAMA 2604 Weathering Specifications. Vista comes in a wide range of colours & styles ~ by varying the railing height, using tinted glass, or by the addition of decorative accessories, you can further customize the system.

A World of Colours!

In addition to our seven standard colours, Vista offers a Premier line of popular architectural colours – view Diamond Series colours featured on our website address (below). Ask your Vista Dealer about our custom colour program – XP RAL Classic Series. Our powder coated finish is designed for use outdoors, resists weathering and ultraviolet damage and meets one of the toughest architectural standards in the industry, the AAMA 2604.
